If you have a seríous allergy or food intolerance, please contact us prior to booking by emailing or calling the restaurant direct.

We have comprehensive allergen menus which are reviewed regularly and are available in hard copy to view when dining. Our kitchens and suppliers operate in busy conditions and deal with a wide range of ingredients at high volume and therefore we cannot eliminate the possible presence of allergen traces in our dishes.

Please advise a member of our staff of any special dietary requirements at the time of ordering.
